DivIHN Integration and Next Era Transformation Group Announce Strategic Partnership

Chicago, IL – DivIHN Integration, Inc. (“DivIHN”) and Next Era Transformation Group, LLC (“NETG”) are pleased to announce they have entered into a strategic partnership, combining DivIHN’s reputed technology consultancy services and Next Era Transformation Group’s prominent thought leaders in the areas of digital risk management and cybersecurity.

With cybersecurity and technology risk management playing an increasingly critical role across all industries and every aspect of the business, organizations public and private, recognize the need to assess, prioritize and mitigate their business and technology risks to retain their competitive advantage.

With this partnership, DivIHN and NETG are pleased to announce the appointment of Laszlo S. Gonc, CISSP, as the first senior fellow for DivIHN Integration’s Cybersecurity Center of Excellence. Gonc was selected for his longstanding reputation in the field of cybersecurity and managing digital risk. He brings breadth and depth of experience to this role, serving on numerous professional organizations’ boards, both local and national. As a practitioner and consultant, his work has included mid-size and billion-dollar organizations across a spectrum of industries including healthcare, insurance, legal, banking, marketing, manufacturing, and others.

Laszlo Gonc shared, “With this partnership, we bring together the enormous collective experience of senior technology leaders across numerous industries and specialties. Our combined resources bring to bear the refined disciplines of strategy creation, ideation, execution, and successful implementation to achieve client-defined business outcomes.”

The DivIHN-NETG partnership brings together deep skills in digital strategy, technology risk management/assessment/mitigation, cybersecurity, and information governance to help support clients through successful transitions and transformations. The portfolio of solutions includes mergers & acquisitions, data analytics, supply chain vendor risk management, and new era technologies such as machine learning, and the Internet of Things.

Herald Ignatius Manjooran, Founder and CEO of DivIHN, stated that this partnership will extend DivIHN’s capabilities in Cybersecurity Solutions, and will be in line with the core commitment of a holistic approach to Solutions, and pursuing Leadership and Innovation in Strategy alignment, Technology vision, Solution Design, and Project/ Service delivery.

The combined expertise of both organizations will benefit commercial and public sector enterprises when it comes to adopting modern cyber risk paradigms as well as to implementing innovative solutions through the joint services model.
